Our participation in The Box Tops for Education, Campbell Labels, Kemps Give Em Five and Land O Lakes programs has proven to be very successful each year.

We have been participating in the Box Tops for Education Program since 1998. This program will continue through June 2010. The hospital receives over $1,000 each year from this program. The school uses the money for special things they might need or want that are not available through the Campbell's Label program. Nationwide, schools earned over $175 million in the last 10 years.

These programs have given the hospital many benefits both in dollars and in products. Products ordered using Campbell labels were delivered to the Care Coordination/Outpatient Clinic, Occupational and Physical Therapy departments. The hospital staff is most appreciative of everything received.

If you would like to participate in any of these programs, please choose a link to any of these programs.
