Notes:

Community Outreach

Linda Johnson
Community Outreach Chairman
952-948-1745

The Community Outreach Chairman position has been established to promote the work of the auxiliaries to the general public.

In order for our auxiliaries to increase membership, generate interest in our organization, and help with our fundraising efforts, we have to contact businesses, church and civic organizations. Our goal is to reach beyond the Shrine membership and tell the public what we do, who we serve, and to pique their interest in being a partner with us to meet the needs of the children at Shriners Hospital, Twin Cities. The general public is not aware of Shriners Hospitals and what services they offer. This is our opportunity to educate them and ask for their support.

The Community Outreach Chairman will be developing a program the auxiliaries can use in their area to promote interest in our organization. Any questions, please call the above number or email for additional information.
